DETAILED ACTION

Election of Species Requirement

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. A compound having the formula recited by claims 6 and 26.
- II. A compound having the formula recited by claims 7 and 27.
- III. A compound having the formula recited by claims 8 and 28.
- IV. A compound having the formula recited by claims 9 and 29.
- V. A compound having the formula recited by claims 10 and 30.
- VI. A compound having the formula recited by claims 11 and 31.
- VII. A compound having the formula recited by claims 12 and 32.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-5 and 13-25 are generic to a plurality of disclosed patentably distinct species comprising N-halo hindered cyclic amine compounds.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

3. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. A telephone call was made to George Renzoni on September 14, 2005 to request an oral election to the above election of species requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Preeti Kumar whose telephone number is 571-272-1320. The examiner can normally be reached on M-F 9:00am - 5:30pm.
